## 2009 Women of Influence

**JAIMEE KATZ SUSSNER**  
Herrick, Feinstein LLP

Based in Newark, this partner in Herrick, Feinstein's litigation department is well-versed in New Jersey real estate and commercial law. She leads the firm's New Jersey title insurance practice, where she represents several national title insurance companies in resolving coverage issues and litigating title claims asserted by or against their insured.

“Real estate litigation is a male-dominated arena, but opportunities run parallel with increases in the need for litigators concentrating in distressed debt, mortgage fraud, title disputes and the like. More women will likely gravitate to this practice area in years to come and, more important, I expect them to thrive and succeed as the industry continues to become more receptive to females in an advocacy role.”
